

## Innovative Gas Handling Solutions

### PURGE JUMPER STICK

The Purge Jumper Stick provides a complete portable solution for your on-site and field application requirements. The 3/8" high flow stainless steel design with filter provides reliable control of purge gas. As shown, you may use the jumper stick with or without a test gauge. This all welded, low cost design makes this invaluable for purge and test applications.

#### Benefits

- Portable, easy to use, durable
- All inclusive, prevents pilfering
- Low cost
- Quick lead-time
- 100% leak & function tested

#### Features

- 316L Stainless steel
- 3/8" high flow design
- Allows for optional test gauge
